

With 25 years of experience in the ventilation market, Can-Fan is a German wholesaler of fans and filters, which are used in both the gardening and industrial sectors. They offer a range of fans and as a perfect accompaniment to the Can-Fan, there are the Can-Filters which contain high density carbon.

Can-Fan Max-Fan Pro Series

The Max-Fan Pro Series is a range of 2 speed diagonal fans with a 3D rotor-stator system. Silent and compact, the Max-Fans are easy-to-use and easy-to-clean with an integral thermal switch and integrated mounting bracket. These fans are extremely efficient, in terms of both air movement and energy.

The **Max-Fan Pro Series** is available from HydroGarden in the following sizes:

150 2 Speed – 600m³/hr

200 2 Speed – 1218m³/hr

250 2 Speed – 1660m³/hr

Can-Fan RK and RKLS Fans

Can-Fan RK is a plastic tube fan that is speed controllable with a thermal switch to protect the fan's motor. Also, a plastic tube fan, the Can-Fan RKLS has a rotating switch that allows for switching between 4 speeds. These fans are quiet running and powerful.

The Can-Fan RK and RKLS Fans are available from HydroGarden in the following sizes:

- Can-Fan RK 100 – 240m³/hr
- Can-Fan RK 100L – 270m³/hr
- Can-Fan RK 125 – 310m³/hr
- Can-Fan RK 125L – 350m³/hr
- Can-Fan RK 150 – 470m³/hr
- Can-Fan RK 150L – 760m³/hr
- Can-Fan RK 200 – 820m³/hr
- Can-Fan RK 200L – 1110m³/hr
- Can-Fan RK 250 – 830m³/hr
- Can-Fan RK 250L – 1170m³/hr
- Can-Fan RK 100LS 4 Speed – 270m³/hr
- Can-Fan RK 125LS 4 Speed – 370m³/hr
- Can-Fan RK 150S 4 Speed – 460m³/hr
- Can-Fan RK 150LS 4 Speed – 810m³/hr
- Can-Fan RK 200S 4 Speed – 820m³/hr
- Can-Fan RK 200LS 4 Speed – 1110m³/hr
- Can-Fan RK 250S 4 Speed – 830m³/hr
- Can-Fan RK 250LS 4 Speed – 1130m³/hr

Can-Lite Filters

Can-Lite are lightweight carbon filters filled with granulated carbon made from charcoal that is thermally activated. They are reliable for up to 18 months (with a maximum tolerance of – 75% RH and 80°C). The Can-Lite 300 and 425 both have the thickest carbon bed available on the market.

The smaller plastic filters are sold without the spigot (flange) to allow you to choose a spigot to suit the fan of your choice. All filters have an 18 month life span.

The Can-Lite Filters are available from HydroGarden in the following sizes:

- Can-Lite 300m³/hr Plastic Body Filter (450mm)
- Can-Lite 425m³/hr Plastic Body Filter (600mm)
- Can-Lite 600 Filter – 150/475 (6") 600m³/hr
- Can-Lite 1000 Filter – 200/500 (8") 1000m³/hr
- Can-Lite 1000 Filter – 250/500 (10") 1000m³/hr
- Can-Lite 1500 Filter – 200/750 (8") 1500mm³/hr
- Can-Lite 1500 Filter – 250/750 (10") 1500m³/hr
- Can-Lite 2000 Filter – 250/1000 (10") 2000m³/hr
- Can-Lite 2500 Filter – 250/1000 (10") 2500m³/hr
- Can-Lite 3000 Filter – 315/1000 (12") 3000m³/hr
- Can-Lite 3500 Filter – 315/1000 (12") 3500m³/hr
- Can-Lite 4500 Filter – 315/1000 (12") 4500m³/hr
